

Getting the most out of your SMART Board

Here are a few helpful tips so that you can get the most out of the SMART Notebook lessons provided.

Alternatively, if you do not have a SMART Board you can use the .pdf file for each lesson on any digital projector or computer screen.

Flash activities & videos

Included in the SMART Notebook lessons and the .pdfs are flash activities and videos. This rich media offers high quality content as well as activities that the students can interact with. To view this content you will need to have installed on your computer Adobe Flash player. This can be downloaded free from <http://get.adobe.com/flashplayer/>

SMART Notebook

If you are using a SMART Board in your classroom, you will have SMART Notebook software installed on the connected computer. SMART Notebook allows you to open and view the SMART Notebook lessons provided on this USB stick.

These lessons were developed in version 10.7 of the software and it is advised you update to the latest version. Please see your IT administrator regarding this. SMART Notebook and other SMART applications can be downloaded from <http://smarttech.com/au/Support/Browse+Support/Download+Software>

The SMART Notebook lessons can also be edited to tailor the content to your lesson plans. The lesson content provided is locked in the SMART Notebook file and can not be edited and/or distributed.

Teachers' notes & worksheets

Throughout the lessons, relevant teachers' notes and printable worksheets can be accessed via the icons located at the bottom left of the screen. You will need either Adobe Reader or Adobe Acrobat installed on your computer to view and print these files. Adobe Reader is free to download from <http://get.adobe.com/reader/>. Web links can also be accessed by clicking on the hyperlink button.
