

<p><b>Network Standard</b> <b>Advice No. 1865</b> 28/10/2015 Doc. Ref. Network Standard NS110 Amdt1</p>
---

**TO: Customers, Service Providers and Ausgrid Staff.**

## **Amendments to Network Standard NS110, Design and Construction Standard for URDs**

### Summary

This Network Standard was converted to BMS format in June 2015 and has now been revised to include all the current BMS formatting requirements.

These includes:

1. Removal of references to NUS network standards, these are now identified simply as NS network standards.
2. Extending the list of referenced documents.
3. Validation of references to other Ausgrid documents following BMS conversion of these documents
4. Validating references to external agencies and associated documentation.
5. Updates to the sample compliance checklist.
6. Numerous other formatting changes within the document.

No changes were made of a technical nature. The existing review date has been retained.

Note: Current network standards, with NSAs and CIAs, are available on Ausgrid's Internet site at [www.ausgrid.com.au](http://www.ausgrid.com.au).
