

## The program

Ausgrid has a targeted asset replacement program in high risk bushfire areas, such as Scotland Island and West Pittwater.

Before the start of the next bushfire season in September 2018, Ausgrid has identified network services that require replacement and will be undertaking this program from 21 May 2018.

In conjunction with our own asset replacement, Ausgrid and its contractors will be working with the community to ensure privately owned assets also comply with bushfire standards.

Weather permitting, we expect the program to be completed by early August.

## Planned interruptions

While we carry out the work, there will be planned electricity interruptions to individual properties.

### Tuesday 12 June

Properties affected:

42, 46, 48, 50, 69, 71, 73, 75, 77, 79, 81, 83, 85 and 87 Thompson Street
