

DRAWING 212393 - INDEX

SHEET	DRAWING	AMMENDMENT
1	Index Page	5
2	Typical Size 8 Communications Jointing Pit	2
3	Typical Communications Pit Construction - Load Classification Class C & Class D	1
4	Breakout detail for each side of route for dual circuit	2
5	Breakout detail on same side of route for dual circuit - Arrangement A	3
6	Breakout detail on same side of route for dual circuit - Arrangement B	3
7	Distributed Temperature Sensing (DTS) Typical Breakout - Arrangement A	2
8	Distributed Temperature Sensing (DTS) Typical Breakout - Arrangement B	2
9	Combined DTS & Comms typical breakout - Arrangement A	2
10	Combined DTS & Comms typical breakout - Arrangement B	2
11	Combined DTS & Comms typical lay flat arrangement breakout details	2
12	Combined DTS & Comms typical breakout to bypass HV jointing pit (Single circuit)	2
13	Combined DTS & Comms typical breakout with DTS entering HV jointing pit (Single Circuit)	2
14	Combined DTS & Comms typical breakout to bypass HV jointing pit (Double circuit)	2
15	Combined DTS & Comms typical breakout with DTS entering HV jointing pit (Double Circuit)	2
16	Fibre cable flow through typical communications pit	0
17	Combined DTS & Comms typical breakout 2x2 HV conduit arrangement	0
18	Fibre & Duct Arrangement - Inline Fibre Hauling Pit Typical Arrangement	0
19	Fibre & Duct Arrangement - In Road Comms Pit	0

20111014

CAD DRAWING DO NOT MANUALLY AMEND	
AMENDMENTS	
1	Amendment to sht 14, title block & added sht 16. 14/11/13
2	Amendment to sheets 5 & 6. 29/10/14
3	Amendment to sheet 2. 27/01/15
4	Amendment to sheets 4--15. 27/02/15
5	Addition of sheets 17, 18 & 19. 11/01/17
